The increasing interest of the modern world is not anywhere. An array of differing scientific reasons had a hand in it. Today, many global studies are talking about the psychological and social life of humans, the spirit of confidence and, in most cases, the shock. An individual's performance rather than beauty, greenery also accounts for it. To sum it up, the latest drive by private companies for green living is therefore not a luxury but has more ground in the Holy Quran when it is confirmed. The green colour symbolizes

ALLAH (GOD) has mentioned green in the Holy Quran in the verses of paradise doors and the verses are as follows:

- (It is He who sends down water from the sky, and We grow, the green foliage, the grain by which you eat.)
- (Seven ears of corn that were green and yellow.)
- (Seven ears of corn that were green and yellow.)
- (With silken robes of green and of yellow.)
- (Do you not see how ALLAH sends down water from the sky, and earth turns green?) Al Hag: 63
- (Who gave you fire from a green tree?)
- (Reclining on green cushions and on yellow ones.)
- (On their bodies will be garments of green and yellow.)

Green also symbolizes fertility, blessing and life. Do you not see how ALLAH sends down water from the sky, and earth turns green?) Al Hag: 63

At Green Paradise Magazine, we aim to provide a wide range of green spaces and run monthly updates on the green industry. This will be greatly boosted by our working in the fields of indoor and outdoor greenery. We hope to achieve the issue of the magazine that will benefit everyone.

We are always open to your comments and suggestions. Regards, until we meet again through the magazine.
